

ABOUT US

UMS is a trusted manufacturer of **structural cold-formed steel (CFS) framing** and **non-structural drywall systems** built for speed, precision, and durability. Our advanced roll-forming lines produce high-quality studs, tracks, and ceiling components for both commercial and residential applications.

We partner with general contractors, drywall installers, and framing crews to keep projects on schedule and within budget – without compromising on quality. Whether you are building load-bearing steel structures or interior partitions, UMS delivers framing you can rely on.

Certified, Precise, On time.
That's the UMS promise.
